

## ET-NawSwarm ECE Team Progress Report - 23FEB2024

### This week:

Finishing PCB footprinting. Need to talk to CS team about size constraints.

Made custom USB connector for Nate.

Met with Ethan to review Lunacat wiring. Wiring looked safe enough to continue.

### Next week:

Expecting to send first order by next weekend. First order will be about five fully-assembled boards.

Will meet with Ethan again for full startup.
